The prior art is silent about applicant's structure for split-gate flash memory cells (claims 1-14) and method of fabricating split-gate memory cells (claims 15-28), wherein applicant's invention can be readily distinguished from prior art by the claimed "trapezoidal floating gates," in the context of applicant's written description and other claim limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
